*Experience In Stone*

# OUR HISTORY

Michael Wyatt, Director and Founder of Stone Style, has over 35 years experience in the Stone Industry.

Growing up on the Northern Beaches of Sydney, inspired by natural stone in its rawest and awe inspiring forms, Michael began his career as a Stonemason and visionary for the stone industry within Australia.

Michael has been involved in an extensive array of projects from commercial buildings, residential interiors and exteriors, landscapes, internationally and nationwide.

His passion for design and his understanding of natural stone application has enabled him to provide the stone industry with a natural stone supplier and installer, of impeccable and high reputation throughout the building, stone and landscaping industries.
